## 6 Greenwood Place Menlo Park

*"We always loved living on Greenwood Place because the kids could go out and play without us having to worry about their safety. It's sort of an old time neighborhood in that way. All the kids played on the street, skated, rode their bikes, and drew with chalk. We saw a lot of kids grow up. We also loved how we could borrow something for cooking from our neighbors and they could borrow from us too, cause that's just how it works!"*
