

# REDWOOD CITY

With its quaint neighborhoods and lovely downtown area, Redwood City fosters a strong sense of community. Residents are devoted to preserving the city's rich history by maintaining a Local History Room and offering a Self Guided History Tour Brochure for visitors. The Courthouse Square and Plaza are walking distance from the theatre district and downtown dining, encouraging residents to gather together for community events.

Redwood Shores lies on the San Francisco Bay waterfront, home to many major technology companies such as Oracle, Electronic Arts, and Ernst & Young, as well as townhomes and condos.

Pedestrian-friendly, tree-lined streets and nicely maintained local parks make Redwood City a desirable city for young families. If you are looking for a home more removed from the heart of town, explore Emerald Hills.
